

GIS MK School Dorm

Missionary kids need a safe, nurturing place to live while studying at Grace International School.

Dorm for NTM MKs attending Grace International School

Profile Missionaries living in remote locations face a problem providing their children with an excellent education in a safe environment. For missionaries' children in Thailand, the best option is often the multi-mission boarding school, Grace International School. There is currently a serious shortage of living quarters for the children and NTM has been renting a house to use as a dorm. The owner intends to sell it eventually, which will result in NTM's eviction from the house.

Plan To avoid disrupting the children's lives and parent's ministries, NTM desires to purchase and finish renovating the home that they are currently renting. The cost of the home is \$107,700 and the cost of the renovations is estimated at \$12,300.

Project Your investment will help enable missionaries to remain in remote tribal areas knowing that their children are being educated and cared for in an excellent environment. Without this, church planting missionaries often have to leave their ministry. In addition, purchasing this property would stop further loss of monies invested to renovate a rented home.

Total Cost \$120,700
