

Flight Centers

Secure airplane hangars are needed in the Palawan and Mindanao regions.

Problem The Philippine flight program provides crucial assistance to missionaries in remote areas. The 78 missionaries serving more than 30 tribes on the Islands of Mindanao and Palawan each need a regional airport to most efficiently meet their flight needs. Flying shorter distances to each tribal work will be more cost effective. The hangars will also provide a secure place to keep the planes and protect them from severe weather.

Solution The hangars are now under construction. Through various sources God has provided two-thirds of the monies needed for the hangars. Gifts for this project will be doubled by a generous donor who has offered up to \$12,000 in matching funds.

Benefit Your gift to this project will enable missionaries working among 30 tribal groups to minister more effectively. The flight program is a crucial link providing emergency help, supplies and transportation to these missionaries.

Total Cost \$124,000
