

Tagbanwa Project

Your investment in this project would help reach more than 7,000 Tagbanwa people.

Leaders would like to prepare 25 men to reach their own people.

Problem Four Tagbanwa men have been trained at the Mindanao Baptist Rural Life Center. Their studies included in-depth Bible training, as well as animal husbandry and fruit and vegetable gardening, hygiene, sanitation and basic community health and medicine. These men are currently serving the Lord among their tribal communities.

NTM's leaders in Philippines have already invested more than \$29,000 in developing a training facility and curriculum for the Tagbanwas. Due to the success in training four men, leaders would like to prepare 25 men to reach their own people. \$66,000 is needed for the next three years of training at which time the project should be self sufficient.

Solution This project will have widespread benefit toward planting tribal churches.

Benefit Your investment in this project would help reach more than 7,000 Tagbanwa people living in scattered remote jungle areas who have yet to hear the Gospel message.

Total Cost \$95,000
