

Vianapolis School For Missionary Children

Three sides of the wall have been completed.

Problem Due to urban development and technological advances there has been an increase in drug-related crime, and other undesirable elements in the area. Due to thefts and security concerns, the staff began investing in a wall to completely surround the property. Three sides have been completed but because of the present weak exchange rate, rising labor costs and lack of funds, construction has been put on hold.

Solution Sufficient funds would allow construction to continue.

Benefit Your investment in this project would provide a safe place for the children of missionaries in remote tribal works. The knowledge that their children are in a safe environment and receiving an excellent education allows them to devote their time to teaching, translation and tribal church planting.

Total Cost \$15,000
